

<i>Item</i>	<i>Part ##</i>
Magnetic wheel encoder for scanning with <b>phased array probes</b> and guided wave probes (SRUT probes)	SK 2001116 PA
Probe holder with irrigation channel for S 4922104376, S 4922104377 Linear Array Probes equipped with S 4922104378 wedge - weld inspection and recording	SK 2004104 PA
Probe holder with irrigation channel for S 4922104379, S 4922105503, S 4944109464 linear array probes equipped with S 4922104380 wedge - weld inspection and recording	SK 2004106 PA
Probe holder with irrigation channel for S 4922104381 linear array probe equipped with S 4922705119 wedge - weld inspection and recording	SK 2004108 PA
Probe holder with irrigation channel for S 4922105504 linear array probe equipped with S 4922104679 wedge - weld inspection and recording	SK 2004112 PA
Probe holder with irrigation channel for S 4922105505 linear array probe equipped with S 4922104680 wedge - weld inspection and recording	SK 2004116 PA
Probe holder with irrigation channel for S 4922107553 linear array probe equipped with S 4944262021 or S 4944262012 wedges - weld inspection and recording	SK 2004120 PA
Probe holder with irrigation channel for S 4922214381, S 4922214386 linear array probes equipped with S 4922215119 wedge - weld inspection and recording	SK 2004124 PA
Probe holder with irrigation channel for SK 69141, SK 69142 wedged linear array probes MWB Style - weld inspection and recording	SK 2004128 PA
Probe holder with irrigation channel for SK 69143, SK 69144 wedged linear array probes SWB Style - weld inspection and recording	SK 2004132 PA
Probe holder with irrigation channel for S 4922104381 linear array probe equipped with S 4922104683 and 4922104702 delay lines - compression wave inspection and recording	SK 2004141 PA
Probe holder with irrigation channel for S 4922214381, S 4922214386 linear array probes equipped with S 4922214683 and 4922214702 delay lines - compression wave inspection and recording	SK 2004145 PA
Probe holder with irrigation channel for SPAP 909006408 linear array probe equipped with delay lines - compression wave inspection and recording	SK 2004149 PA

Example of assembly: S 4922214381 equipped with S 4922214702 delay line for the compression wave inspection, scanning, and recording with use of SK 2001116 PA encoder and SK 2004145 PA probe holder

Irrigation nozzles

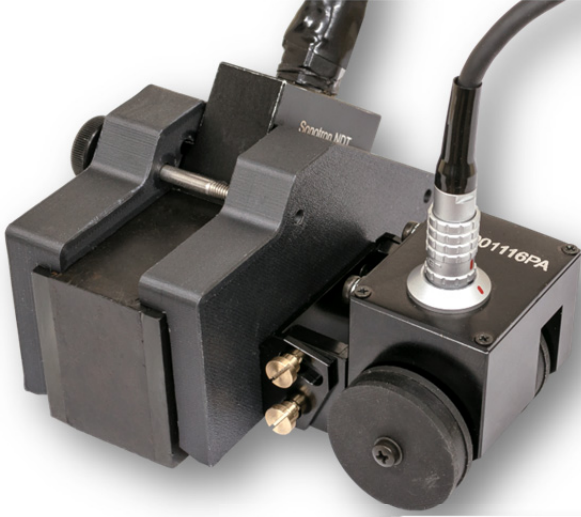

Scanning above flat surfaces and  
around large OD tubes, vessels

Scanning around small OD tubes

SONOTRON NDT

4, Pekeris st., Rabin Science Park, Rehovot, 7670204, Israel

<i>Item</i>	<i>Part ##</i>
Magnetic wheel encoder for scanning with phased array probes and <b>short range guided wave probes (SRUT probes)</b>	SK 2001116 PA

Flat Surface and scanning along the tubular surface

Circumferential scanning – large ODs

Circumferential scanning – small ODs  
(50 mm – min)
